From Someone Who Knows...

Coleen Ellis and Mico

"Mico was my heart and is the inspiration for the daily work that I do for Two Hearts Pet Loss. It is so comforting to know that I have her pawprint on the beautiful Buddies charm, right next to my heart."

Coleen Ellis understands "Pet Parents - A Journey Through Unconditional Love & Grief", the title of her recent book that reveals what pet parents want when they

lose a beloved pet. Coleen opened the first stand-alone pet funeral home in the United States and founded **Two Hearts Pet Loss Center**, a resource for pet death care providers. She also co-chairs the **Pet Loss Professional Alliance**, an association that promotes high ethical standards and the dignified care of all pets at the end of their lives and pet parents as they deal with grief.

BELOVED PET KEEPSAKES

What is a Buddie?

It's different things to different people.

"I touch Nikko's pawprint and think about the greeting that awaits me when I get home. It gets me through the day.

My Buddies KeyTag is my reminder of the fun I had running on the beach with my girls and my best budd, Coupe.

All my four-legged babies are on my bracelet. I wear it everyday.

Duke was born a hunter and was always at my side. He's gone now, but when I touch his noseprint on my pocket knife, I remember our great adventures together.

With a touch of your Buddie, stories flow—evoking warm feelings and wonderful memories.

Buddies are made from the unique paw-, nose-, hoof-, or other prints of your favorite pets. From a two-dimensional ink print or high resolution photo of the nose or paw, Meadow Hill's artisans create a three-dimensional wax that is then cast in metal using the ancient art of lost wax casting. Polished and engraved, perhaps embellished with a stone or chain, these one-of-a-kind keepsakes keep you coming back to the stories that connect you to your beloved pets.

Maintaining Sterling Silver Keepsakes

If sterling silver jewelry is worn daily, the natural oils in the body generally keep it lustrous for long periods. However, over time or if not worn regularly, a piece can dull or tarnish. Cleaning restores its original shine.

If you would like to have your charm plated so as to eliminate tarnish and the possibility of an allergic reaction, be sure to have this done as the charm is made. Or, return the charm and plating can be done for a minimal charge plus shipping.

Cleaning Instructions

1. If your piece is heavily tarnished, first remove the tarnish with a liquid tarnish remover following the manufacturer’s instruction. It only takes a second or two. Never submerge jewelry with stones (synthetic or genuine) in tarnish remover or leave jewelry in the liquid for longer than a few seconds.
2. Use a good silver cream polish to restore the shine and place a protective coating (and tarnish resistor!) on your piece. These are available in most hardware and grocery stores. Again, follow the manufacturer’s instructions.

Metal Allergies

Most people have no problem wearing sterling silver. However, a small percentage of the population has metal allergies and reacts to the alloys used in sterling silver. When worn, their pieces quickly tarnish, turn colors, and, in severe cases, cause a skin reaction. If this happens, Meadow Hill can plate any sterling silver piece to make it hypo-allergenic. There is a charge for this service plus the UPS charge to return the piece to you.

Satisfaction guarantee

Meadow Hill warrants its products to be free from defects in material and workmanship for a period of one year.

Limitations

Repairs not covered in this warranty include:

- stone loss due to prong damage;
- discoloration due to environmental factors;
- discoloration due to an allergic reaction* to the base metal or its alloys; and
- damage due to wear, customer neglect or abuse.

Outside of this first year, repairs to damaged or worn pieces will be quoted based on standard jewelry repair costs.
